TECHNICAL SKILLS

Languages: Python, PHP, Java, C#, JavaScript, HTML/CSS.
Legacy & Modernization: COBOL, AI-driven Refactoring (Legacy language modernization).
Frameworks & Libraries: Laravel, Bootstrap, TailwindCSS
Databases: MySQL, DBMS
Tools: Git, GitHub, Agile Methodologies.

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (Sept 28, 2022).
IBM Z Xplore - Concepts (Feb 25, 2026).
IBM Z Xplore - Advanced (Feb 27, 2026).

Note: Full driving license / Owns a car.

Junior Full Stack Developer with a background in web and enterprise software development, specializing in back-end technologies. I manage modern web solutions and the evolution of complex software systems using Python, COBOL, and Artificial Intelligence. An intuitive and Agile-oriented professional, I aim to create scalable solutions by solving problems within complex architectures and databases.

PROFESSIONAL EXPERIENCE

Web Developer - FacileDoc (Freelance Collaboration)

Apr 2025 - Jul 2025

Contributed to both backend and frontend development using Laravel and TailwindCSS
Worked with packages such as Backpack and Filament
Supported the internal development team in building new features and fixing bugs

Intern - Avanade

Feb 2022 - Nov 2022

Developed backend applications using C# and the .NET framework
Managed version control with Git and GitHub
Collaborated in an Agile team to enhance project efficiency and quality

EDUCATION

COBOL & AI LEGACY MODERNIZATION | AITHO

Feb 2026 – Mar 2026

Focus on mainframe system maintenance and the use of Python and AI for code refactoring.

Hackademy Full-Stack Bootcamp | Aulab

Sep 2024 – Feb 2025

Full-stack web development program focused on front-end (JavaScript, HTML, CSS) and back-end (PHP, Laravel) technologies. Specialization in Java back-end.

Pitagora Scientific High School

Sep 2006 – Jul 2012
